I was Skeptical at first as an epic fortnite gamer like me should be but i gotta say this game was amazing; All of the best moments come from the first level. I wont spoil much beyond the start but you wake up in a darkly lit room with your famliy and friends missing and infront of you lay 9 cards with troll faces on them and your captors strike a deal that if you can do 100 rounds of their matching game in an hour they will let you and your famliy free. The story arc of your faceless protagonist is very compeling and feels like nothing else on steam can match the quality of this game.
